

NF CDC Approves MOU for Fire Station Deal

Posted on [April 21, 2009](#) by [admin](#)

On Monday evening, the CDC Board of Directors unanimously approved an MOU (Memorandum of Understanding) between the North Fork Rancheria, the County of Madera and the CDC. This MOU lays out a three-way deal whereby the CDC donates land and the Rancheria and the County put up funding, to build a new North Fork fire station at the Mill Site.

This is an exciting project that will benefit the community and jump start development at the Mill Site. The fire station will be located just inside the entrance to the Mill Site from Douglas Ranger Station Road.
