

CDC Warming Center Receives 80

Visitors During the Power Outage

Posted on [March 28, 2011](#) by [admin](#)

The following clip is from the Fresno ABC evening news on Friday March 25, 2011. They highlight the fact that the North Fork CDC opened the Mill Site office building to the community as a warming station. Volunteers manned the building, prepared food and even showed DVD movies to provide entertainment for community members whose houses were without power. Thanks to all who pitched in to help others in need!
