

Women's Club has a New Home!

Posted on [August 22, 2011](#) by [admin](#)

The North Fork Women's Club has a home at the Mill Site! After years of dreaming and planning, the Women's Club has purchased a 40' shipping container that was delivered to the mill site this morning. The North Fork CDC provided a piece of land for the container to be located. The Women's Club will use the container to store materials and equipment that was previously stored in various locations including people's homes.

Here are a few photos of the Women's Club members, their helpers and CDC representatives.

The CDC wishes the Women's Club all the best in their new digs!
