

CDC Signs MOU with Reliable Renewables 1/23/12

Posted on [January 24, 2012](#) by [admin](#)

The CDC Board last night, approved the MOU (memorandum of understanding) between the CDC and Reliable Renewables, LLC. This Houston based firm was chosen as the “preferred vendor” after a Request for Information was sent to five firms specializing in bioenergy technology. The MOU simply expresses each party’s commitment to work together to see if a successful project can be realized. The MOU can be seen by [clicking here](#) (once the MOU is counter signed, it will be posted).
